

Standard Operating Procedure (SOP)

New Operational Policy Development & Publication

Document ID: SOP-OPS-001
Version: 1.0
Effective Date: [Insert Date]
Owner: Operations Excellence

1. Purpose

This procedure establishes a standardized process for developing, reviewing, approving, and publishing operational policies and procedures to ensure consistency, governance control, and alignment across business units.

2. Scope

This SOP applies to all departments responsible for drafting, updating, reviewing, or approving company policies, procedures, and operational documentation.

3. Roles & Responsibilities

Process Owner

- Provides subject matter expertise
- Defines operational requirements
- Validates real-world applicability

Technical Writer

- Conducts structured interviews
- Drafts and formats documentation
- Applies formatting, tone, and evidence standards
- Manages version control and redlines

Business Unit Leader

- Reviews draft for operational accuracy
- Confirms alignment with execution standards

Executive Approver

- Provides final authorization for publication

HR Learning & Development

- Converts approved SOPs into training materials
- Supports rollout and adoption strategy

4. Procedure

Step 1: Initiation

- Process Owner submits documentation request.
- Technical Writer schedules discovery interview.

Step 2: Information Gathering

- Conduct structured interviews.
- Collect existing process artifacts, checklists, and templates.

Step 3: Draft Development

- Develop structured SOP using approved template.
- Include:
 - Purpose
 - Scope
 - Roles
 - Procedure steps
 - Required artifacts
 - Evidence requirements

Step 4: Internal Review

- Circulate draft with tracked changes enabled.
- Incorporate SME feedback.
- Validate operational feasibility.

Document ID: SOP-OPS-001

Version: 1.0

Effective Date: February 26, 2026

Step 5: Leadership Review & Approval

- Prepare final clean version.
- Submit documentation package for executive review.
- Capture approval confirmation.

Step 6: Publication

- Assign document version number.
- Upload to controlled SharePoint repository.
- Apply standardized naming convention.

Step 7: Training & Rollout

- Provide finalized document to HR L&D.
- Support training materials development.
- Communicate rollout plan.

5. Required Artifacts

- Completed SOP template
- Version history table
- Approval record
- Supporting forms/checklists
- Distribution notice

6. Version Control & Governance

All documents must include:

- Document ID
- Version number
- Approval date
- Controlled storage location
- Change summary log

Document ID: SOP-OPS-001

Version: 1.0

Effective Date: February 26, 2026

Redline drafts must be stored separately from approved final versions.

Approved documents must reside in designated SharePoint folders with read-only permissions for general staff.

7. Version History

Version	Date	Author	Summary of Changes	Approved By
1.0	[Date]	[Name]	Initial Release	[Exec Name]
